## Create new integrated tool with purchasable products

Ulf Kronsell - 2024-06-13 - [Create New Tool With Products](#)

Follow the process below to add a new integrated tool in the partner portal:

1. Log in to the partner portal through [www.skolon.com](http://www.skolon.com).

Don't have an account? Contact us at: [support@skolon.eu](mailto:support@skolon.eu)

2. Click **Tools** in the left menu.

3. Available tools are shown. You can edit, search and filter among the available tools.

**Note!** Number of users relates to how many users have the tool **visible** in My collection.

4. To add a new tool, click **New tools**.

The screenshot shows the 'Tools' section of the Skolon partner portal. On the left is a navigation menu with options: Start, Statistics, Economy, Licence management (with a red notification icon), Tools (highlighted), and Documentation. The main content area is titled 'Tools' and includes the subtitle 'Manage, edit, and add new tools'. At the top of this area is a 'New tools' button, a search bar labeled 'Search for tool', and a 'Filter' button. Below this is a table of existing tools:

Tools	Status	Publication	Market	Rating	Number of users
ClaroRead Plus ...		Not released		☆☆☆☆☆	x 15168
ClaroRead Pro PC		Not released		☆☆☆☆☆	x 12307
Claroldeas PC		Published		☆☆☆☆☆	x 30648

You are now guided through seven steps that can be filled out to set up a new tool. The overview always shows how much of the process you have completed.

### Section 1. Information

1. Set delivery to be done through Skolon.

2. Specify compatible platforms.

8. Specify release date and author if relevant.
9. Select the applicable accessibility standards for the tool.
10. If the tool has specific terms and conditions you can add a link to those here.

The screenshot shows a configuration page with a left sidebar containing: Start, Statistics, Economy, Licence management, Tools (highlighted), and Documentation. The main content area is divided into several sections:

- Release information:** Contains a red '8.' and two input fields: 'Release date' and 'Authors' (with 'Add author' below it).
- Specific terms of purchase and use for the tool:** Contains a red '10.' and a note: 'NB Fill in the link if you have specific terms of purchase and use for this tool in relation to what is set under company settings'. Below is an input field labeled 'Link to terms of purchase and use'.
- Browser compatibility:** A list of browsers with checkboxes: Chrome, Safari, iOS Safari, and Firefox.
- Accessibility:** Contains a red '9.' and radio button options: 'Does not meet accessibility standards' (selected), 'WCAGA', 'WCAG AA', and 'WCAG AAA'.
- Information about data sharing:** A toggle switch for 'This tool processes users' personal data' which is currently turned on.

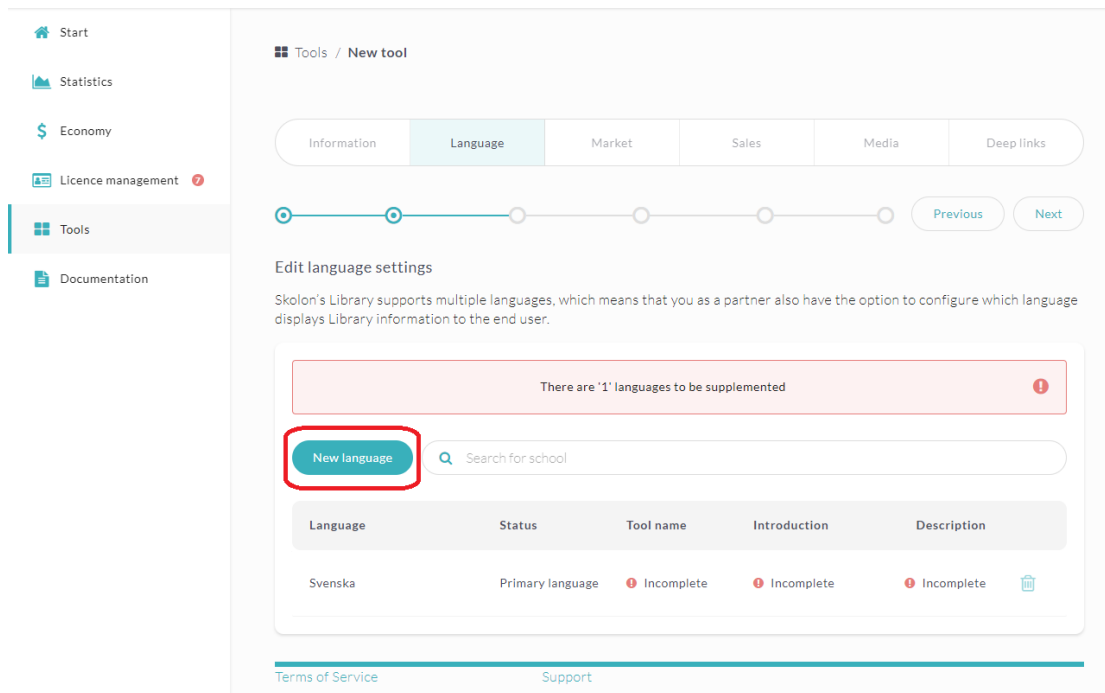

11. Click **Next** in the top right corner of the page to continue to the next section.

The screenshot shows a multi-step configuration wizard. The left sidebar is the same as in the previous image. The main content area is titled 'Tools / New tool' and features a progress bar with six steps: Information, Language, Market, Sales, Media, and Deep links. The 'Information' step is currently active. At the bottom right of the progress bar, there are two buttons: 'Previous' and 'Next'. The 'Next' button is highlighted with a red rectangular box.

## Section 2. Language

In this section you will set the primary language and add additional languages if applicable. The text added in this section will be visible in the Skolon library.

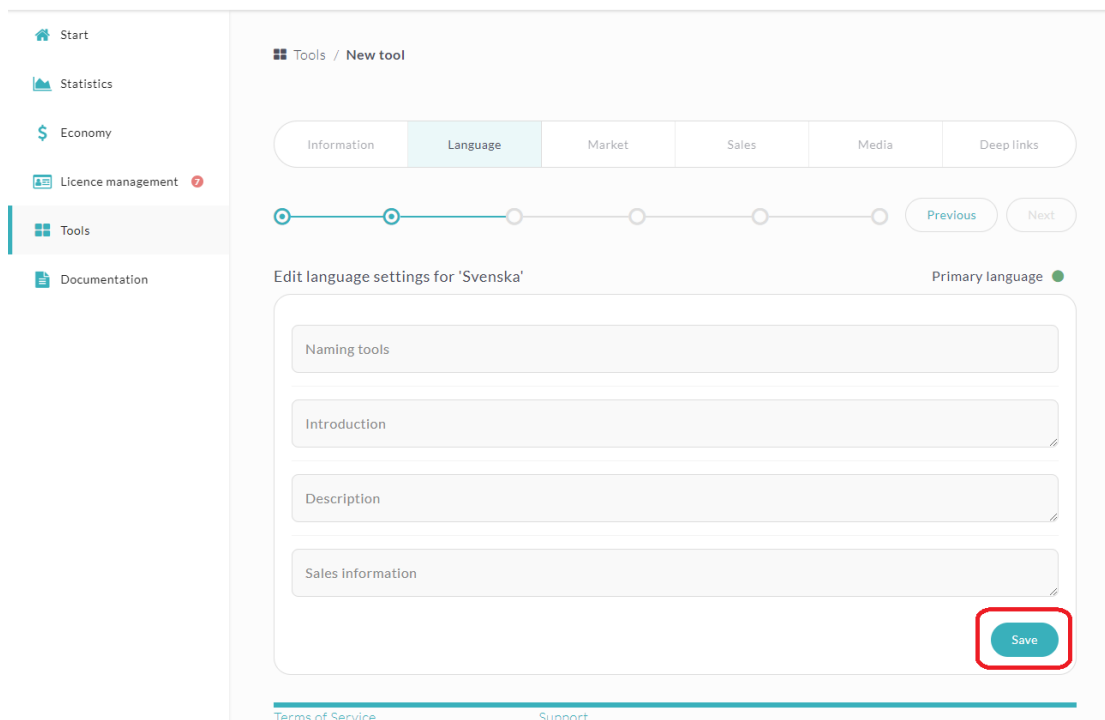

1. Click the row with the language you want to edit or click **New language** to add a new language.

2. Fill out the name of the tool, an introduction and a description. This information will be visible in the Skolon library.

3. It's possible to also fill out sales information, e.g. a link to your support page or a contact form. For now leave this field empty as this link is currently not visible in the Skolon library.

4. When you have completed this section, click **Save**.

### Section 3. Market

1. Specify the markets that the tool will be available in. To add a new market/country click **New country**. **NOTE!** Do not forget to set language for the new market.

## Summary of Sales

- You can create single, class, school or organization licenses.
- You can also choose the duration of the license, please note that automatic renewal is default, you have to specifically select manual license management if you do not want automatic renewal.
- You set a price and VAT percentage. If you want to provide price on request you can select that option. Note that this will be a manual procedure where you get a request in the partner portal that you need to respond to.

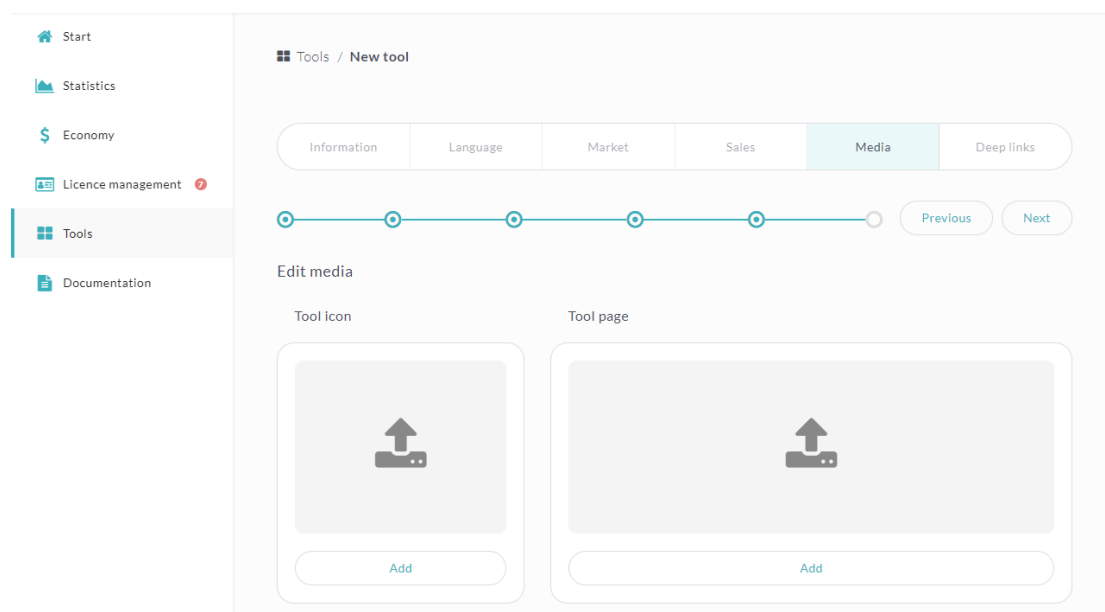

- You can only limit the number of students/teachers for class licenses.
- The field **Description** is mainly for internal use for you as a partner, it is only visible for the user in the final step before checking out of the cart from Skolon.

### To keep in mind:

- Make sure that there are no outdated tools in your partner portal
- Major updates that significantly changes the content or structure of the tool must be communicated clearly and with good foresight to us at Skolon via support@skolon.eu
- Skolon invoices the customers that buy licenses through Skolon on a monthly basis. For you as a partner we will settle according to the current routines and conditions that are defined in your partner agreement. You will receive an invoice specification the month after the customers purchase and can then invoice Skolon.
- Make sure that your VAT percentage is correct for the applicable markets.
- You can create discount codes for your customers in the partner portal. See the [Discount codes](#) article.
- When a customer has ordered licenses for a tool where licenses are not created automatically an order confirmation will be sent to the e-mail address that you have specified in the partner portal. You must handle this order within 5 days and make sure that the customer receives delivery of the tool.
- For organisation- and school licenses (price on request) the price relates to the total amount based on the number of users that the customer has entered. If the customer ask for price per user, refer them to single licenses.
- If you create licenses spanning several years (more than 1 year), note that the total amount is invoiced the first year (year 1).

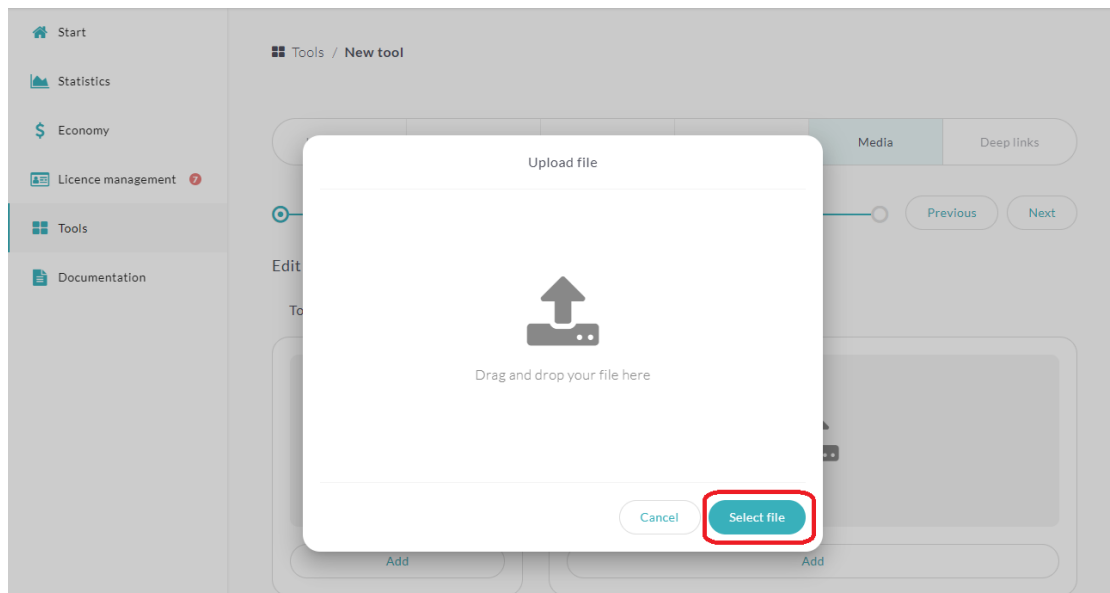

## Section 5. Media

In the Media section you can upload a tool icon(240 x 240 pixlar) and images for the tools page (1280 x 360 pixlar). These will be visible in Skolon's Library . In addition to the tool icon you can upload an icon background for the tool's library page. You can also upload additional material such as manuals, voices and license keys.

1. Click the area for which you want to upload the image. Drag and drop the file into the marked area or click **Select file**.

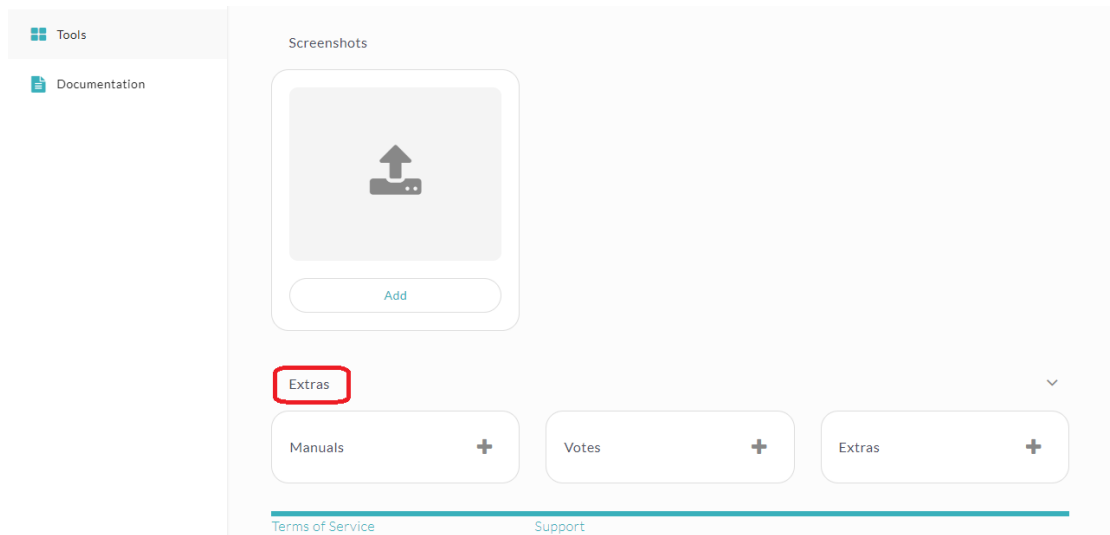

2. Select image from your computer.

3. Adjust the size and position of the image. Click **Save**.

4. Under the headline **Extras** you can upload or link additional material like manuals, voices and license keys.

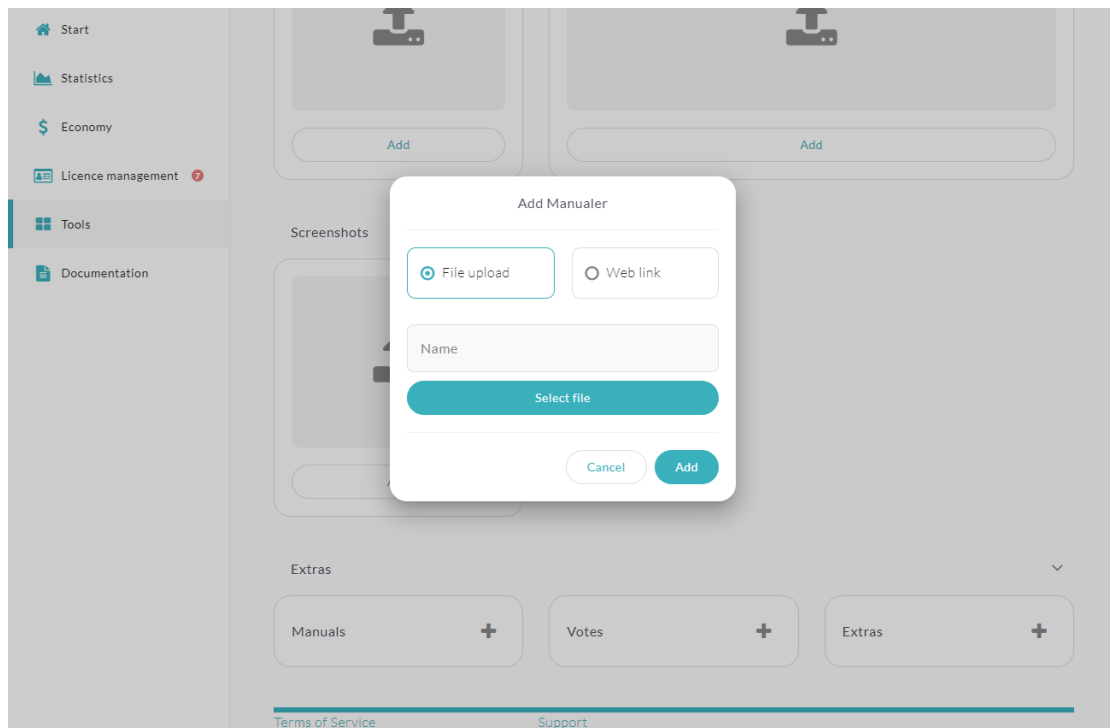

5. Select whether a file will be uploaded or if a link to a web resource will be provided.

6. Add a name.

7. Upload a file or fill out a URL. Click **Add**.

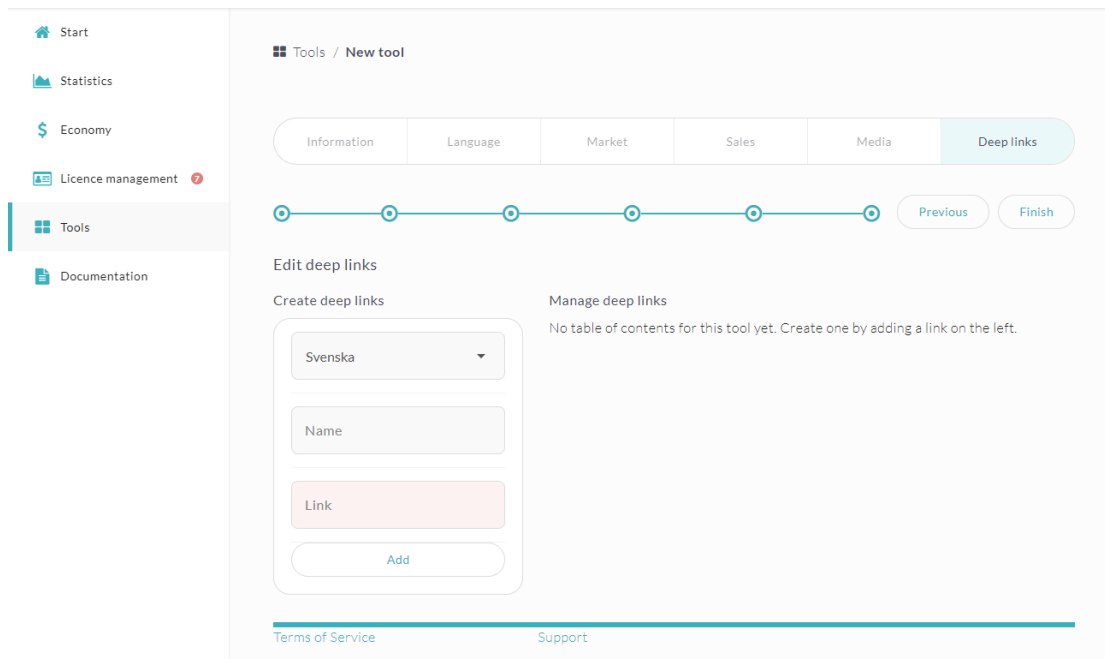

8. Click **Next** at the top right corner of the page.

## Section 6. Deep links

In this section you can create deep links (clickable table of content) for the tool.

Contact your Skolon contact person to get additional instructions on how to do this.

## Section7. Stories

In the Skolon library the users can rate a tool and submit information on how they use the tool Rates and stories for the toll can be seen here. You can sort by latest rating, highest and lowest rate using the filter.
