# Request a Canva for Education tenant with pseudonymisation

Ulf Kronsell - 2026-07-03 - Canva for Education

Create a free account in Canva, this will be your organisation admin account in Canva. You can create your account at Canva.com

**Note!** It is recommended to use a function based e-mail address rather than a personal e-mail address.

Start pesudonymisation for Canva in Skolon Datavis as described in these articles:

SE: Aktivera pseudonymisering

NO: Aktivere pseudonymisering

EN: Activate Pseudonymisation

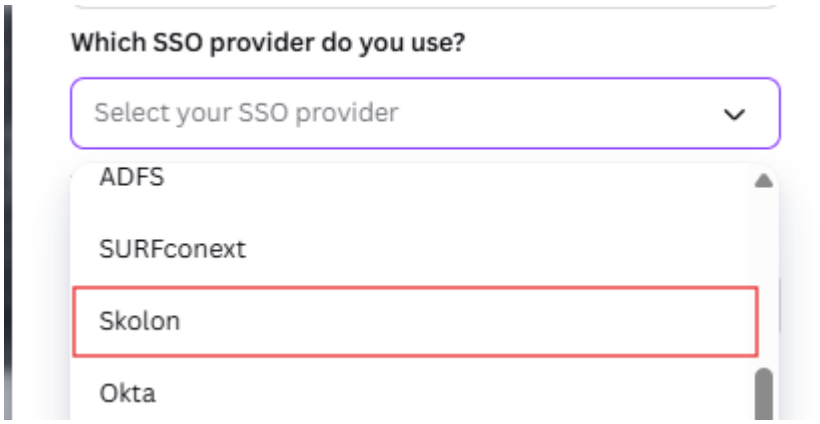

When activating pseudonymisation for Canva your pseudonymised domain will be visible, example: skolonkommunen.skolongateway.com. Please note your pseudonymised domain as you will need to enter it in your tenant application.

Apply for a tenant by filling out this form. After submitting the form, Canva will process your request and you will receive access to your Canva for Education Tenant.

Some of the pages require Skolon-specific information, for these pages please fill in the information as stated below.

## SSO-provider

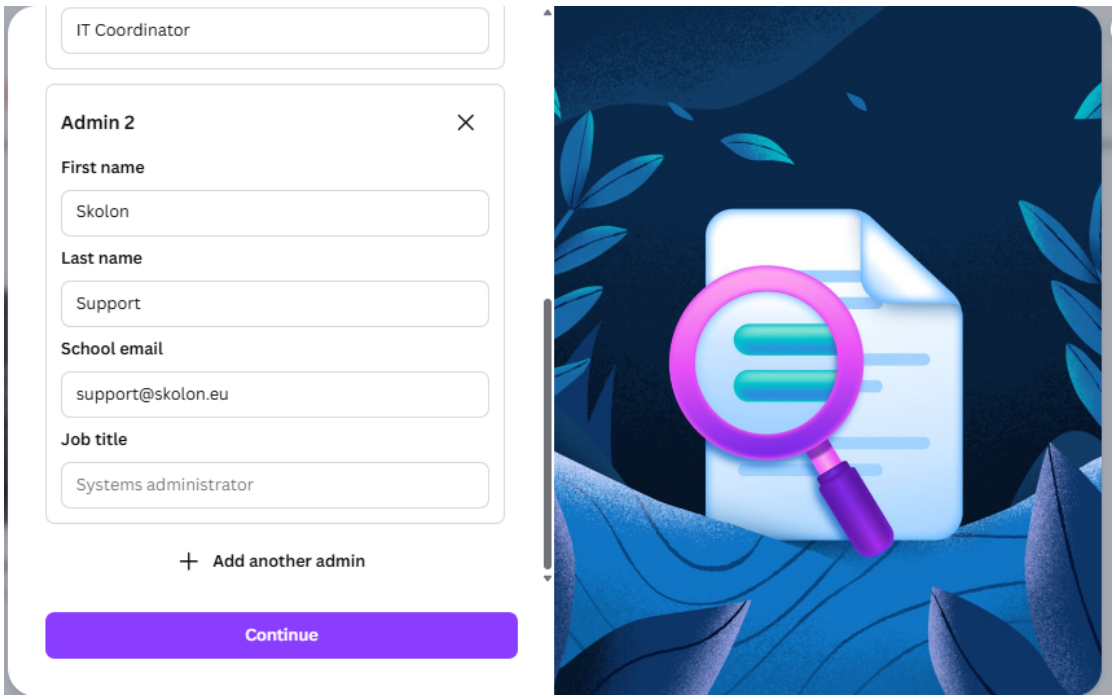

Select Skolon as SSO provider.

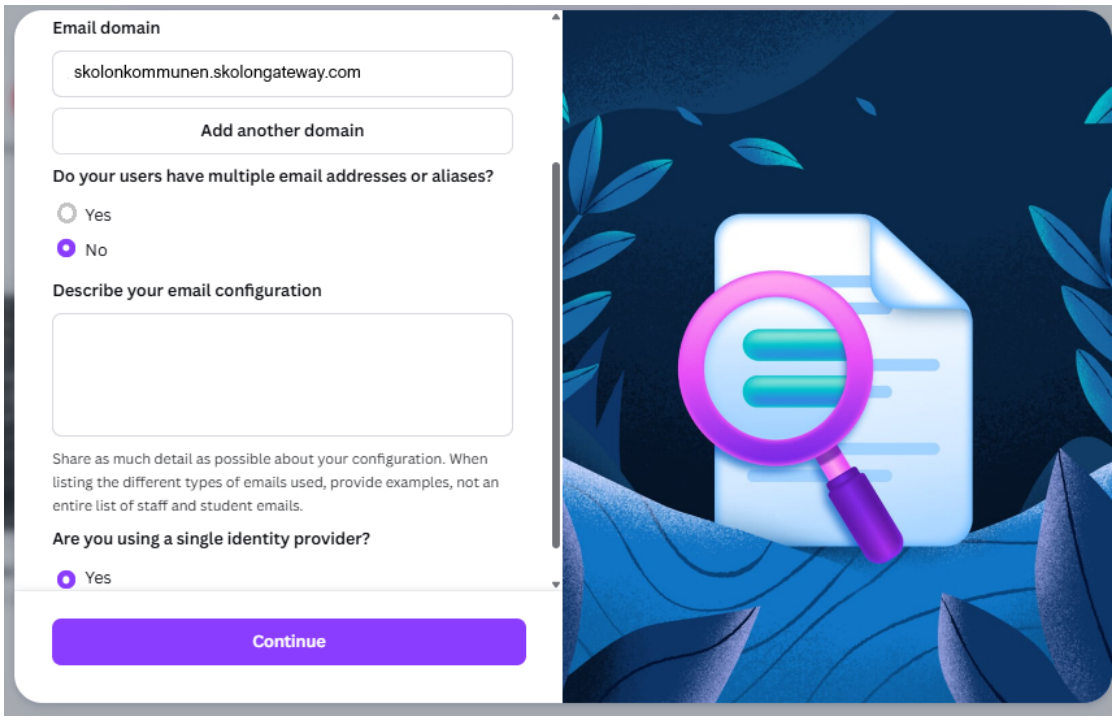

## Email Address Information

It's important that you create a Canva account prior to submitting the form with the same email address that will serve as the Owner of the Canva for Education tenant. You can create your account at Canva.com

Make sure to also add support@skolon.eu as an orgadmin account as this will speed up handling time for your application and also make it possible for Skolon support to help you out.

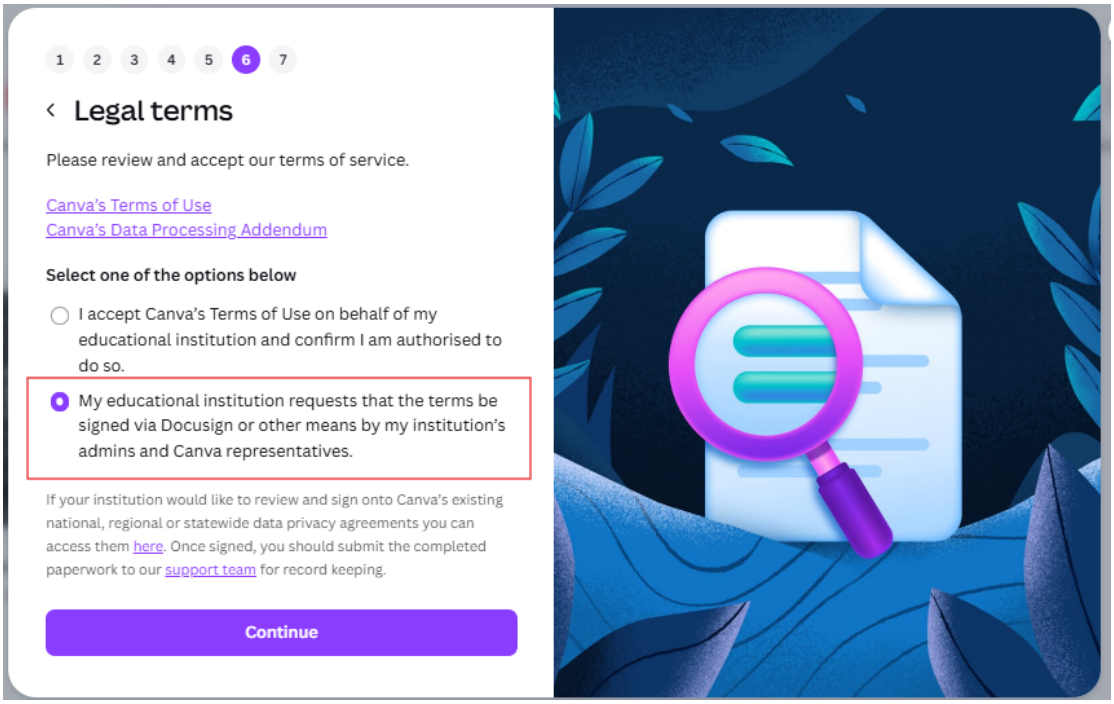

On this page - fill in your pseudonymised domain which will apply for your users in Skolon. The email domains used in Skolon will have to be verified in Canva in order for you to provision the users to your Canva for Education tenant.If you have any questions regarding the submission of this form for the Skolon specific information, please contact the Skolon support, and we'll help you out. For any other questions regarding the form, please see Canva for Education support pages.

## Legal terms

Click the lower option if you want to select the regional model agreement for Sweden.

You can find it here: https://public.canva.site/canva-education-model-agreement-portal/global

## Next steps

Once Canva has handled your submission the email address you entered will receive credentials to sign into your Canva for Education Tenant. Once you have access to your tenant, proceed with the installation by following the instructions in this article:

Installing Canva SSO and rostering
