Specify a standard price for products with price upon request

Ulf Kronsell - 2024-03-15 - [Create New Tool With Products](#)

As requested by customers it's now possible to set a standard price per user for a product, enabling customers to directly calculate the discount received from the standard price when making a purchase through the Skolon App Store

To set a standard price, click **Tools** in the menu.

Click the tool you want to add a standard price for.
